This is in addition to the standard commissioning: REMOTE-BASE.

CONTROLLER & ANTENNA

Every package requires one DIM10-087-06-A controller per zone, plus one antenna. Choose the right-angle (ANT-ORB-1-5.1) or straight (ANT-OSB-XXX) based on mounting needs.

CLOUD PRO / LM - BASE

Required for any package that includes RGB color or PRO-FX. Optional for Basic White-Only – only needed if remote cloud access is desired.

PRO-FX COMMISSIONING

Both SER-PROFXDEV and standard REMOTE-BASE commissioning are required for all PRO-FX packages. Both line items must appear on the BOM.
